

How Do I Set Up Canon PIXMA TS307 Printer on WiFi Easily?

At first glance, [[📱[+1]888-754-6002]] (USA/UK) or 📱[+1]888-754-6002(USA/UK) (US) the Canon PIXMA TS307 looks like any other compact printer—but its wireless setup works a little differently.

Instead of a screen-based setup 📱[+1]888-754-6002 like larger models, this printer relies on **button-based configuration and mobile-assisted pairing**. That's why many users get stuck—not because it's difficult, but because the 📱[+1]888-754-6002 process isn't obvious.

Answer

To set up Canon PIXMA TS307 on WiFi, press and hold the Wireless button until the indicator blinks, open 📱[+1]888-754-6002 the Canon PRINT Inkjet/SELPHY app, add the printer, select your WiFi network, and enter the password. Complete setup by printing a test page.

The TS307 📱[+1]888-754-6002 is designed for **mobile-first printing**, meaning:

- No touchscreen interface
- Setup controlled via buttons and app
- WiFi pairing handled through smartphone

👉 So instead of configuring 📱[+1]888-754-6002 everything on the printer, you guide it using your device.

✓ Quick Checklist:

- Printer powered ON
- Smartphone connected to WiFi
- Canon PRINT Inkjet/SELPHY app  [+1]888-754-6002 installed
- Bluetooth enabled (if prompted)
- WiFi password ready

 This ensures smooth pairing.

1 Activate Wireless Setup Mode

![[Image](https://s7d1.scene7.com/is/image/canon/printer_renamed-4?scl=1)]

- Launch Canon PRINT Inkjet/SELPHY app
- * → 📱 [+1]888-754-6002 Tap **Add Printer**
- Select PIXMA TS307

👉 The app searches for the printer in setup mode.

3 Connect Printer to WiFi Network

- Select your WiFi → 📱 [+1]888-754-6002 network
- Enter password carefully
- Wait for connection confirmation

👉 Printer joins your wireless network.

4 Complete Setup

- Follow on-screen instructions
- Allow permissions if needed

👉 Finalizes → 📱 [+1]888-754-6002 pairing between device and printer.

5 Print Test Page

- Send a sample print

- Confirm output

👉 Ensures setup is successful.

● Printer Not Found in 📱 [+1]888-754-6002 App

Cause:

- Setup mode expired
- Device not on same network

Fix:

- Restart setup mode
 - Reconnect device to correct WiFi
-

● Setup Stuck Midway

Cause:

- Weak WiFi signal
- * 📱 [+1]888-754-6002 App permissions blocked

Fix:

- Move closer to router
 - Enable required permissions
-

● Connected but Not Printing

Cause:

- Driver/app not configured properly
- Network mismatch

Fix:

- Re-add printer
 - Restart → 📱 [+1]888-754-6002 app and printer
-
-

WPS Setup

- Press WPS button on router
- Hold Wireless button on printer

👉 Automatic connection without entering password.

USB Setup → 📱 [+1]888-754-6002 (Limited Support)

- Connect printer via USB (if supported)
- Configure via Canon software

👉 Useful fallback option.

✓ Best Practices:

- Use 2.4GHz WiFi for better compatibility
- * → 📱 [+1]888-754-6002 Keep printer within signal range

- Avoid switching networks frequently
 - Update app and firmware regularly
 - Restart router occasionally
-

Unlike traditional printers, the TS307 relies on your  [+1]888-754-6002 smartphone to **complete the setup logic**.

If the app isn't configured correctly:

- Printer connects
- But remains unusable

 That's why the app is not optional—it's essential.

*  [+1]888-754-6002 Enable wireless setup mode (blinking light)

- Use Canon PRINT app to detect printer
 - Connect to WiFi network
 - Complete setup and test print
 - Use WPS  [+1]888-754-6002 if needed
-

1 How do I connect Canon TS307 to WiFi?

Press the Wireless button, then use Canon PRINT app to complete setup.

2 Why [+1]888-754-6002 can't the app find my printer?

The printer may not be in setup mode or connected to a different network.

3 Can I set up 📱 [+1]888-754-6002 without a smartphone?

The app is recommended, but WPS can be used as an alternative.

4 Which WiFi band is best?

2.4GHz is more stable and 📱 [+1]888-754-6002 widely supported.

5 Why does setup fail repeatedly?

Usually due to timing issues, weak signal, or incorrect password.

Final Thought

The Canon PIXMA TS307 WiFi 📱 [+1]888-754-6002 setup isn't complicated—it's just **different from what most users expect**.

Once you let the app guide the process and follow the timing correctly, the printer 📱 [+1]888-754-6002 connects quickly and works seamlessly across your wireless network.
