

How Do I Set Up HP LaserJet Pro 4104dw on WiFi Network Easily?

((WiFi~Setup~Exclusive)) How to Setup HP LaserJet Pro 4104dw Printer on WiFi Network?

The best way to connect with a high-performance printer like the HP LaserJet Pro 4104dw isn't by trial and error—it's by following a structured setup path that aligns the printer, [[📞+1•888•754•6002]] (USA/UK) or 📞+1•888•754•6002(USA/UK) (US) network, 📞+1•888•754•6002 and device in one clean flow. This model supports advanced wireless features, but if the setup order is disrupted, the printer may never appear on your system.

Quick Answer (🌟 Style)

To 📞+1•888•754•6002 set up the HP LaserJet Pro 4104dw on WiFi, power on the printer, access wireless settings, select your WiFi network, enter the password, install HP Smart or drivers, and add the 📞+1•888•754•6002 printer to your device. Ensure both devices are on the same network.

What Makes HP LaserJet Pro 4104dw Setup Different?

This printer is designed for business environments, meaning:

- It supports manual network 📞+1•888•754•6002 configuration

- It often uses IP-based detection
- It requires proper driver installation

👉 Setup happens in two stages:

Printer connects to network → Device connects to printer

Step-by-Step: Setup HP LaserJet Pro 4104dw on 📞+1•888•754•6002 WiFi

Step 1: Power On and Access Network Settings

- Turn on the printer
- Go to **Settings** → **Network Setup** → **Wireless Setup Wizard**

💡 This initiates the WiFi connection process.

Step 2: 📞+1•888•754•6002 Connect to WiFi Network

- Select your WiFi network (SSID)
- Enter password carefully
- Confirm connection

👉 The printer will display a confirmation once connected.

Step 3: Find Printer IP Address

- Print network configuration 📞+1•888•754•6002 page
- Note the IP address

This is useful for manual setup.

Step 4: Install HP Smart or Drivers

Download:

- **HP Smart app** (recommended)
- Or full driver package (Windows/macOS)

This enables communication between device and 📞+1•888•754•6002 printer.

Step 5: Add Printer to Your Device

For Windows:

- Go to **Devices and Printers**
- Click **Add Printer**
- Select HP LaserJet Pro 4104dw

For macOS:

- Go to **Printers & Scanners**
 - Click 📞+1•888•754•6002 + and select printer
-

Step 6: Confirm Setup

- Printer status shows “Ready”
 - Print a test page
-

Alternative Method: WPS Setup (Quick Connect)

If your router supports WPS:

1. Press **WPS button** on router
2. 📞 +1•888•754•6002 Within 2 minutes, select **WPS Setup** on printer
3. Wait for connection

⚠️ Not all networks support this feature.
